DIGITAL DESIGN 1

Marjorie Vicenzi came from Lillie, France to Miami. She works in a French perfume company. Her boss asked her to create quality presentations on social media. She needed training and enrolled in TEC's Digital Design 1 program.

She said she loves to do a triathlon which she explained is a multi-sport sequential race with the components of swim, bike, run (the finish). You quickly transition taking off a wet suit, to jumping on a bike, and putting on shoes. The transition time is counted and must be coordinated and organized between each. It is important to come to the coach and train every day.

Marjorie drew a parallel to Digital Design. Swim the network to find and save pictures. Jump on social media to create an advertisement, and then run over social media to post (the finish). For both the triathlon and Digital Design the most important element is training. She likes the training she receives every day from her teacher, Mr. Jose Lira.

MESSAGE

FROM THE PRINCIPAL

It is hard to believe that time has passed quickly, and we have entered the summer trimester. Missing class for any amount of time can and will have an impact on a student's learning, achievement, and grade. When you must be absent, be sure to let your teacher know the reason for the absence and ask to make-up any missed assignments. There is an expression that "absence makes the heart grow fonder", but this saying does not apply to missing classes.
