MESSAGE FROM THE PRINCIPAL

July is the last month of the trimester. It is the time when end of course testing happens. ESOL students prepare for the CASAS Test. ABE students prepare for the TABE test.

GED students test to obtain a high school diploma. Cosmetology and Early Childhood Education students prepare for a state licensure exam. The students in Air Conditioning and Refrigeration, Digital Media, Network Systems Administration, Facials, and Nails study for a state certification exam.

Many students are stressed as testing time approaches. When you are stressed you eat ice cream, chocolates, and sweets. Do you know why? It is because stressed spelled backwards is desserts!

Please take time to study and prepare for testing, but don't get stressed!

EARLY CHILDHOOD EDUCATION "NEWS"

Mileidy Alvarado started to study ESOL two years ago. TEC allows parents to bring their children 5-12 to child care. She put her two year old daughter, Carlie Marie, in the child care center. Watching the kids, she realized that she loved not only her daughter, but all children. In May she switched to study English on-line and enrolled in Early Childhood Education. She started as a volunteer, 4 hours each week, to complete her 480 required child care volunteer hours. She interacted with the children so well that the principal in mid-June hired her for an additional paid 4 hours each week.

Mileidy says, "I love all the kids because they are very cute. I am grateful the principal gave me the opportunity to begin to work in this area. Before I became a mother, I did not understand how much I would like children. This profession is for me. Thanks to my teacher, Ms. Vera Lamar, who is always helping people, I am learning how to care for children, to understand each age, and to see how the children change quickly and grow from one step to another."

She plans to own a child care center one day.
