## CAREER/ TECHNICAL EDUCATION (CTE)

Amara Cisneros, who came to Florida from Quito, Ecuador when she was six years old, stands out in her Cosmetology class. The reason is she is the only person in the room with aqua colored hair. One year ago she started by making just a small blue streak. Then over time she made more and bigger streaks. Then one day she colored her whole head of hair blue. With time the color has changed to aqua.

Amara said, "I studied to be a skin and nails specialist at a private school which is now closed. I wanted to study about hair because I like the feel and touch of hair, and I like curling and blow drying hair." Her mother had studied Cosmetology at The English Center eight years ago. She followed in her mother's footsteps and registered in Ms. Martinez's Cosmetology class. When she passes the State of Florida exam, she will have a full Cosmetology license to practice as a hair specialist, a nails specialist, and a facials specialist. She plans to work in a beauty salon.

## Message From The Principal

As the fall trimester begins, the main reason students choose to enroll in a class is to educate themselves. Whatever program is chosen, education is that field can lead to a good life, and after all, we have only one life to live. Therefore, learning should make life as good as possible.

Teachers don't just teach a subject. They care about and want to help students. Classmates interact and become friends with each other, and as they study support each other. The English Center is a place with a nurturing culture where you can help others and others help you to grow. Think of The English Center as your second family.
